

# Sabotage Pizza

by Owen Strombeck

## RULEBOOK

### Objective

You are the chef at a new pizza restaurant, trying to build a reputation of delivering the best pizzas in town - but watch out - your competition is willing to play dirty. Each turn you will add one topping to your pizza, and one topping on an opponent's pizza! Try to build a combination of toppings on your pizza that fulfills one of the available orders. When you deliver your pizza, that customer will give you more stars in their review if you delivered what they wanted. The chef with the most stars at the end wins!

### Setup

1. Place the Star Cards within reach.
2. Shuffle the Topping Cards to form the Toppings Deck.
3. Deal 4 Topping Cards to each player.
4. Shuffle the Order Cards to form the Orders Deck and place it in the center of the table.
5. Flip over the top [n] Order Cards (where [n] = the number of players).
6. Determine a player to go first, then play proceeds clockwise.

### On Your Turn

1. **Play a Topping on Your Pizza**  
-Play one Topping Card from your hand face-up in front of you on the table.
2. **Play a Topping on Someone Else's Pizza**  
-Play one Topping Card from your hand on someone else's pizza (in front of them).  
-If each of your opponent's pizzas already have 4 toppings on them, skip this step.
3. **Deliver Your Pizza?**  
-If your pizza now has 4 toppings on it, deliver it to one of the available orders!  
-Collect stars for how well your pizza matches the order. See 'Delivering Your Pizza' for details.
4. **Draw Topping Cards**  
-Draw back to 4 cards from the Toppings Deck.  
-Reshuffle the discarded Topping Cards if empty.

### Winning The Game

-The first player to collect 20 stars wins!  
-If the Orders Deck runs out before a player has collected 20 stars, whoever has the most stars when the last Order card is drawn from the Orders Deck is the winner!

### Optional Rule - Lose Stars for Negative Reviews

For a more challenging experience - If you deliver a pizza that results in a negative review, return that amount of stars from those you have previously collected.

### Delivering Your Pizza

1. Claim the Order Card that you are delivering to.
2. Collect stars for the customer's review as follows:
  - a. +1 or +2 stars for each topping on your pizza that matches the order.
  - b. -1 star for each negative topping on your pizza.
  - c. Other toppings do not add or subtract stars.
  - d. If your delivery results in a zero or negative-star review from the customer - don't take any star cards.
  - e. How many stars you have is always public knowledge.
3. Discard your current pizza's Topping Cards.
  - a. Place them in a discard pile by the Toppings Deck.
4. Replace the Order  
  - a. Flip over the top card of the Orders Deck to replace the order you claimed.

### Pizzas Are Delivered with Four Toppings

-Pizzas must have exactly 4 toppings to be delivered.  
-If your pizza has 4 toppings on it when your turn starts, you must deliver it immediately at the beginning of your turn.  
-You may not play more toppings on an opponent's pizza if it already has 4 toppings.  
-If everyone else's pizza already has four toppings on it when it is your turn to add a topping to someone else's pizza, skip this step this turn.
